Crescent Systems, Inc. Expands Into New Operational Facility

Richardson, TX – July 17, 2023

Crescent Systems, Inc. (CSI), a leading provider of cutting-edge engineering solutions, is proud to announce the expansion of its operations with the addition of a 30,000 square foot operational facility. This strategic expansion represents a significant milestone in the company's growth and underscores its commitment to delivering innovative engineering services to clients.

The new operational facility boasts state-of-the-art infrastructure and technology designed to enhance CSI's capabilities in providing high-quality engineering solutions. This expansion allows the company to accommodate a growing client base and meet the increasing demand for its services.

Key highlights of CSI's new operational facility include advanced manufacturing space, research and development center, quality control and testing labs, and increased capacity.

CSI's Ryan Tinay noted that "CSI has always been dedicated to providing top-tier engineering solutions to our clients. This expansion represents a strategic investment in our future and our ability to continue delivering excellence. With our new operational facility, we are well-equipped to meet the evolving needs of our clients and remain at the forefront of engineering innovation."

About Crescent Systems, Inc.

Crescent Systems, Inc. (CSI) is a privately held Woman-Owned Small Business (WOSB) with several operating locations throughout the continental United States. Founded in 1995 initially to address the Defense community's multi-level secure defense messaging needs, CSI is a technology integrator providing multi-level secure Command, Control, Communications, Computers, Intelligence, Surveillance and Reconnaissance (C4ISR) solutions to Department of Defense, State and Federal agency customers.

Our trusted solutions are implemented through robust secure voice, video and data multi-domain architectures and devices engineered to operate. As an established Systems Integrator supporting the Aerospace and Defense industry over the last two decades, CSI has a proven reputation for designing, developing, and certifying products and systems for integration into harsh and austere environments.

For further information, contact Ryan Tinay, Chief Innovation Officer.
