### **Strategic Mission Systems LLC, a Joint Venture, Multi-Year Contract Award**

---

**Richardson, TX – June 26, 2017**

Today, the US Government announced the highly-anticipated contract award of the E-4B National and Nuclear Communication Support (N2CS) contract to Strategic Mission Systems LLC, a Joint Venture founded specifically to support the needs of the US Air Force, National Airborne Operations Center, and the 1<sup>st</sup> Airborne Command Control Squadron prescribed in the solicitation.

The Joint Venture is formed between three small businesses with unique competencies and expertise in the operation, development, integration and certification of E-4B mission systems. These businesses share a common commitment to increasing fleet availability, improving system-wide reliability and maintaining the platform's communication system's survivability.

- Crescent Systems, Inc. of Richardson, TX
- Enclave Management, Inc. operating of Midwest City, OK
- Executive Airborne Solutions, Inc. of Omaha, NE

As a Joint Venture member, CSI provides hardware, software and integration engineering design and analyses services. New hardware and software solutions development, reverse engineering, establishing hardware source of repair programs, producing White Papers and Trade Studies, obsolescence and diminishing manufacturing sources and materials analyses and, on-site Field Engineering services are just a few of the other services we offer N2CS stakeholders under this contract.

#### **About Crescent Systems, Inc.**

Crescent Systems, Inc. (CSI) is a privately held Woman Owned Small Business (WOSB) with several operating locations throughout the continental United States. Founded in 1995 initially to address the Defense community's multi-level secure defense messaging needs, CSI is a technology integrator providing multi-level secure technical solutions to National and Nuclear Command, Control and Communications customers.

Our trusted solutions are implemented through robust secure voice, video and data multi-domain architectures and devices engineered to operate. As an established Systems Integrator supporting the Aerospace and Defense industry over the last two decades, CSI has a proven reputation for designing, developing and certifying products and systems for integration into harsh and austere environments.
