Crescent Systems, Inc. Returns to Nashville for 2023 QUAD-A Summit

Nashville, TN – April 26, 2023

Crescent Systems, Inc. (CSI) returns to exhibiting at the Army Aviation Association of America (QUAD-A) 2023 Summit. The Summit is a highly attended gathering place for the entire US Army Aviation Community (US Military, Industry and Academia) to network and collaborate with a focus on aviation-based issues.

Capability demonstrations of intuitive user-interface applications, Intelligent Power Devices, low-latency Video-over-IP (VoIP) products and, Smart Interface Panels offered by CSI continue to gain the interest of US Army Aviation operators. These demonstrations also are attracting Systems Integrators across the industry for consideration in mission support operational systems in development.

As stated by Dennis Despres, Business Development – Special Mission Solutions “Our commitment to innovation has propelled us to new heights, enhancing the capabilities of our systems to meet the evolving needs of the Department of Defense and public safety agencies. With a relentless focus on excellence, Crescent Systems, Inc. ensures that every solution is a testament to our dedication to security, efficiency, and state-of-the-art performance.”

About Crescent Systems, Inc.

Crescent Systems, Inc. (CSI) is a privately held Woman-Owned Small Business (WOSB) with several operating locations throughout the continental United States. Founded in 1995 initially to address the Defense community’s multi-level secure defense messaging needs, CSI is a technology integrator providing multi-level secure Command, Control, Communications, Computers, Intelligence, Surveillance and Reconnaissance (C4ISR) solutions to Department of Defense, State and Federal agency customers.

Our trusted solutions are implemented through robust secure voice, video and data multi-domain architectures and devices engineered to operate. As an established Systems Integrator supporting the Aerospace and Defense industry over the last two decades, CSI has a proven reputation for designing, developing, and certifying products and systems for integration into harsh and austere environments.
