### Crescent Systems, Inc. Attends UT 2023 Fall Engineering Expo

---

**Richardson, TX – September 7, 2023**

Crescent Systems, Inc. (CSI) participated in the 2023 Fall Engineering Expo at The University of Texas at Austin that took place September 5-7. The Expo is one of the largest student-run career fairs in the nation and attracts more than 6000 student candidates.

Expo events kicked off with The Cockrell School of Engineering Senior Reception, which is a pre-Expo get together focused on encouraging social interactions and personal connections beyond professional settings. CSI's team engaged with over 300 UT Engineering seniors at the casual event.

Then, team members hosted a table at the Expo and were able to talk with more students about engineering careers at CSI.

"CSI is actively recruiting talented engineers," said CSI's HR Director Rodney Gaither, "and we truly enjoyed the time and experience engaging with these students."

#### About Crescent Systems, Inc.

Crescent Systems, Inc. (CSI) is a privately held Woman-Owned Small Business (WOSB) with several operating locations throughout the continental United States. Founded in 1995 initially to address the Defense community's multi-level secure defense messaging needs, CSI is a technology integrator providing multi-level secure Command, Control, Communications, Computers, Intelligence, Surveillance and Reconnaissance (C4ISR) solutions to Department of Defense, State and Federal agency customers.

Our trusted solutions are implemented through robust secure voice, video and data multi-domain architectures and devices engineered to operate. As an established Systems Integrator supporting the Aerospace and Defense industry over the last two decades, CSI has a proven reputation for designing, developing, and certifying products and systems for integration into harsh and austere environments.

For further information, contact Ryan Tinay, Chief Innovation Officer.
