**Date:** May 8, 2020

**Release:** IMMEDIATE

---

### **Crescent Systems, Inc. Partner and Small Business Prime D3 Air & Space Operations Awarded Special Operations Forces CORE Support Contract**

---

**Richardson, TX – May 8, 2020**

Small Business Prime D3 Air & Space Operations (D3ASO) has been selected by the United States Special Operations Command (USSOCOM) to provide subject matter expertise and knowledge-based services in support of USSOCOM's enterprise requirements for globally assigned Special Operations Forces (SOF) missions.

As stated on their website, D3ASO has extensive experience providing strategic programmatic, technical and administrative Advisory and Assistance Services (A&AS) supporting critical programs and systems for the United States Air Force (USAF) including Secretary of the Air Force (SAF), Headquarters Air Force (HAF), and the Air Combat Command (ACC). For more information on D3ASO, contact Steve "SMitty" Mangum, Chief Operating Officer, at either (315) 777-1825 or [steve@d3aso.com](mailto:steve@d3aso.com).

CSI Director of Innovation / New Business Areas Ryan Tinay noted that, "We are very proud to be recognized as a technology partner to D3ASO on the SOF CORE support contract. We are equally aligned committed to providing professional and industry-proven subject matter expertise to our Special Operations Forces users."

#### **About Crescent Systems, Inc.**

Crescent Systems, Inc. (CSI) is a privately held Woman-Owned Small Business (WOSB) with several operating locations throughout the continental United States. Founded in 1995 initially to address the Defense community's multi-level secure defense messaging needs, CSI is a technology integrator providing multi-level secure Command, Control, Communications, Computers, Intelligence, Surveillance and Reconnaissance (C4ISR) solutions to Department of Defense and State and Federal agency customers.

Our trusted solutions are implemented through robust secure voice, video and data multi-domain architectures and devices engineered to operate. As an established Systems Integrator supporting the Aerospace and Defense industry over the last two decades, CSI has a proven reputation for designing, developing, and certifying products and systems for integration into harsh and austere environments.

For further information, contact Ryan Tinay, Director of Innovation / New Business Areas
