Crescent Systems, Inc. Announces Participation in E-XX TACAMO Competition Joint Partnership

Richardson, TX – April 3, 2023

Crescent Systems, Inc. (CSI) announced its participation in a joint partnership with Northrop Grumman, Lockheed Martin, Raytheon, and Long Wave. The partnership, which was introduced at a press conference this week, will be participating in the upcoming E-XX TACAMO competition.

The E-XX TACAMO is the US Navy warplane that will be used to communicate with nuclear missile-armed submarines.

The Northrop Grumman-led team will be competing against Collins Aerospace to win the contract to take the plane from the prototype through the final production phases.

CSI President/CEO Clark Red noted that, “The press conference was attended by several key DoD media personnel and VP-level representatives, who were all very interested with the competition and the strategic partnership.”

About Crescent Systems, Inc.

Crescent Systems, Inc. (CSI) is a privately held Woman-Owned Small Business (WOSB) with several operating locations throughout the continental United States. Founded in 1995 initially to address the Defense community’s multi-level secure defense messaging needs, CSI is a technology integrator providing multi-level secure Command, Control, Communications, Computers, Intelligence, Surveillance and Reconnaissance (C4ISR) solutions to Department of Defense, State and Federal agency customers.

Our trusted solutions are implemented through robust secure voice, video and data multi-domain architectures and devices engineered to operate. As an established Systems Integrator supporting the Aerospace and Defense industry over the last two decades, CSI has a proven reputation for designing, developing, and certifying products and systems for integration into harsh and austere environments.
