Crescent Systems, Inc. Invited to Support Prototype Development of NC3 System Virtual Trainer

Richardson, TX – December 8, 2022

Today, Crescent Systems, Inc. (CSI) announced an invitation by Long Wave Inc. (LWI) to assist in developing a maintenance trainer as part of a STRIKEWERX Advanced Training Concepts (ATC) Challenge recently awarded to LWI. The Weapons System Maintenance Trainer (WMST) solution offered by the LWI will leverage operational user interface software capabilities, implementing both communications interface and diagnostic applications.

Drawing from the decades-long experience supporting critical mission communications systems, Crescent Systems will provide LWI with Software Engineering and Subject Matter Expertise developing and testing the prototype WMST which will emulate aircraft communications systems – Low Frequency Transmit System (LFTS), Family of Advanced Beyond Line of Sight - Terminals (FAB-T), Modified Miniature Receive Terminal (MMRT), aircraft Diagnostics and Message Processing System (MPS) Virtualization support.

Long Wave is a Small Business defense contractor headquartered in Oklahoma City, OK. An industry leader in strategic communications systems, LWI the installation and maintenance of Very Low Frequency/Low Frequency/High Frequency (VLF/LF/HF) communication systems, software development, software, and hardware installation, Nuclear Command, Control and Communications (NC3), Contract Support Services (CSS), and systems engineering.

For further information about Long Wave Inc., contact Bernie Greteman, Director of Contracting at (405) 227-6248 or bernie.greteman@longwaveinc.com. You can also visit the Long Wave website at www.longwaveinc.com.

About Crescent Systems, Inc.

Crescent Systems, Inc. (CSI) is a privately held Woman-Owned Small Business (WOSB) with several operating locations throughout the continental United States. Founded in 1995 initially to address the Defense community's multi-level secure defense messaging needs, CSI is a technology integrator providing multi-level secure Command, Control, Communications, Computers, Intelligence, Surveillance and Reconnaissance (C4ISR) solutions to Department of Defense and State and Federal agency customers.

Our trusted solutions are implemented through robust secure voice, video and data multi-domain architectures and devices engineered to operate. As an established Systems Integrator supporting the Aerospace and Defense industry over the last two decades, CSI has a proven reputation for designing, developing, and certifying products and systems for integration into harsh and austere environments.
