Crescent Systems, Inc. Announces Partnership to Deliver Fire Surveillance Platform to the US Forest Service

Colorado Springs, CO – August 14, 2023

Crescent Systems, Inc. (CSI) has partnered with Gold Aero, Inc. and D&J Aviation, Inc. to deliver an aerial wildland fire detection and monitoring capability across the Pacific Northwest in support of a recently awarded US Forest Service contract.

The platform is a Cessna Citation 560 equipped with a WESCAM MX-20HD Sensor System, a Mission and Mapping System, and a communications datalink to deliver digital products to the Forest Service as it combats wildland fires across the Western US.

CSI Chief Innovation Officer Ryan Tinay noted that “This purpose-built aerial imagery collection platform provides the US Forest Service with an extremely valuable situational awareness tool that produces high-altitude and persistent digital still imagery, narrated videos, and overlaid products.”

About Crescent Systems, Inc.

Crescent Systems, Inc. (CSI) is a privately held Woman-Owned Small Business (WOSB) with several operating locations throughout the continental United States. Founded in 1995 initially to address the Defense community’s multi-level secure defense messaging needs, CSI is a technology integrator providing multi-level secure Command, Control, Communications, Computers, Intelligence, Surveillance and Reconnaissance (C4ISR) solutions to Department of Defense and State and Federal agency customers.

Our trusted solutions are implemented through robust secure voice, video and data multi-domain architectures and devices engineered to operate. As an established Systems Integrator supporting the Aerospace and Defense industry over the last two decades, CSI has a proven reputation for designing, developing, and certifying products and systems for integration into harsh and austere environments.

For further information, contact Ryan Tinay, Chief Innovation Officer.
